Know Shipping Restrictions Before Going Stateside

Those getting ready to PCS to the U.S. this summer should start preparing now. U.S. customs officials recommend that people find new homes for items banned from import and apply now for import permits on restricted items. Prohibited items include plants, flammable substances, poisons, obscene publications, destructive devices, explosives and meat and meat products. Prescription drugs and tobacco products are not allowed in household goods but may be carried onto the plane when you fly home. In order to ship any firearms, owners must have proof of stateside ownership or an import permit.
